

Amendments to the Specification

Please replace the paragraph beginning at page 15, line 5, with the following rewritten paragraph:

In the example, a set of actions 1310A for a plurality of threads is shown. A first thread executes the actions right mover 1320A, action 1330A, left mover 1340A, and left mover 1340B. One or more other threads execute the actions E_1 1350A, E_2 1350B, and E_3 1350C. In the example, the right mover action ~~1320~~ 1320A has been identified (e.g., by software) as a right mover, and the left mover actions 1340A and 1340B have been identified (e.g., by software) as left movers.
